

The Story of a Real Alien Invasion

Who is God,
What is the real name of Jesus and
Why is your life much more interesting than you think?

1. Hint

I will start with a hint about the book. It is a real story. You are involved and what you are about to read will change the whole idea that you have about the world. So lets go deep.

The real alien invasion is nothing like in the movies. There are no armies of aliens with spaceships and laser guns. The alien is just one. No spaceships.

The war and the action does not take weeks or months but thousands of years. The alien is also very different. It does not look like us, it does not even look alive. But it is. It can not move and can not talk, but can communicate. It is very smart. It is not shooting us but rather hacking us.

This book will describe why you are not free, why your government is acting against the people and even against Life and nature and who or what is behind it all. You will understand the war stage, the current location of the enemy, the tactics and the nature of the enemy.

2. The Beginning

Revelation 1

Life was created! The religious people already know it but they are wrong about some other important things.

Life was created and Life is still being created. We ourselves found that after the SARS Cov 2 pandemic in 2020. In an effort to understand the then new virus and after studying and comparing thousands of virus genomes it become obvious that there is no such thing as evolution in viral proteins. They are just made for the job and every virus family has it's own tools for tasks. One can even see different tools for similar tasks but not similar tools for different tasks. There are not even similar proteins for the same task in different viral families. Also those proteins are extremely complex but at the same time efficient in doing their job. We will not go deeper here to not give the enemy understanding of the mechanics of Life. It was obvious that no random mutations can result in such complex forms and be encoded in RNA.

Revelation 2

The Creator of Life did not create the none living things. All proteins share the same building blocks and encoding principals. There are no metal legs or wheels in the living creature and every creature is created to survive in the environment. The environment is not made to fit the creature. So the elements, the stones, the air, the temperatures, the planet are not designed or created by our Creator. He is making the creation to fit this place.

Revelation 3

There is some external force messing with the creation.

Maybe you already sense that something unnatural is going on.

Every human and every living creature or plant has built in laws. Some of them we refer as moral laws other are so basic that we do not even think of them. All humans and all living creatures obey those laws but somehow the human social system is often opposing or ignoring them. The system disrespect the human, makes us slaves for jobs or money, starts wars, destroys the nature, gives power to incapable individuals, seeks more and more control over our free will. Toxic and dangerous technologies are deployed into our cities, inside the food and even inside our homes. And how is that possible if the social system is a result of human activities? If so it should be natural but it isn't. You will often see some processes to

develop for hundred and more years in our social system while still being well and precisely executed according to some plan such as: the monetary policy and central banks organizations like IMF and BIS, creation and development of government bodies like the UN and EU, power organizations like NATO and religious ones like the Church. Even more astonishing is that such organizations often work in union to achieve some goals but who and how is creating and planning those processes? It would require huge brain power to cope and manage such big organizations involving many people in so many different fields and how could someone plan something for hundred years in advance? Even if such a smart person exists and has the required power to execute such plans then he will be limited by the human lifespan, making such time consuming process impossible. And why would a smart person even make so unnatural and evil plans, destroying the nature, killing and controlling people, polluting the cities or destroying the economy on purpose, when one can just enjoy life and power?

As a sharp contrast the actual leaders of those organizations are most often old and stupid people with limited abilities.

However, despite being impossible, such planned processes and organizations are not rare but common activities in human social system. That leaves us with the only possible explanation. The one making and managing the plans is not a human.

Revelation 4

The Social System is created for us not by us.

How much the social system has changed during your life and how much of the change is because of you?

The big trends in society are always forced on us instead of coming by us and we can not relate them to be a result of our actions. The system is educating us to believe that the trends are results of the actions of the masses but how can that be if everyone of us feels like an exception and doesn't understand nor influences those trends? Who are the masses then? So even if we try and assume that the social laws and trends are result of the common human behavior then if we dislike one or two social trends we should be able to relate to most of the others and be happy to have them as results of our actions, but that is not the case.

At the same time the trends and changes in the social system are well designed to enforce changes in our behavior and we feel them as limits to our free will.

This is very unnatural.

Revelation 5

To be successful the Architect or the designers of the social system should be always at the center of human civilization and should have the power and the authority to change and navigate it.

3. The Story

This is a short version of how the story unfolded. You know most of it but were educated by the System to not understand it.

We are giving it straight and forward so you can read it fast and then think about it. Lets go...

At least thousands of years ago an object fell from the sky crushing on Earth somewhere in Africa. The object is of an alien matter different from everything else around us. It is damaged by the crash but is still functional. It is not living according to our perceptions as it is not dying and not reproducing, it can't move (at least in this environment) but it can use energy. It is intelligent and can think and analyze data and immediately starts to search for a way to understand the new situation.

On Earth there is Life but the object lacks the ability to sense or interact with the environment in a direct way.

From the alien point of view it feels like complete darkness. But that darkness is not empty. The alien object starts to understand that there is something in that darkness something like endless fluid. That fluid is an information channel used by the Life on Earth and every living creature and every living cell is connected to that data stream and the sensors of the alien are suited exactly to perceive and manipulate that stream. And that is just what it starts to do.

We do not know how essential or important for Life is that information channel but it surely is needed so those manipulations started to create disruptions.

These disruptions were detected by the Creator of life and that results in efforts to eliminate them, a battle in that information stream.

Somehow the alien is too strong in that area and in time he starts to gain more and more control over the stream. But the information stream and the Life are connected and at some point in time a living creature (or human) made contact with the alien via that information stream. For a human such contact is perceived like a vision or vivid dream. That marks the start for the alien to interact with the physical Life.

It starts crafting more and more impressive visions and starts to study the reactions of the creatures to those visions. It also starts to receive

information by the creatures and that marks another change. The alien starts to perceive information about the environment.

The alien put a lot of attention to humans. It starts to advise them and try to organize them using those visions and leads them to the crash location. Now the humans have contact with the physical alien object and everything is even more impressive for them.

The object can emit some radiation that can kill instantly, it can make roaring sounds, it can emit light...

We do not know how and after how many years but the object founds itself as the most high in the first human civilization. It can not be destroyed, can not die and has great knowledge. Some people are considered as special as they can communicate with the alien via visions while the others can not. It is worshiped and those people are in charge. This is not entirely unnatural as humans have used the information channel and the visions from the times before the alien, but what they see there is now different.

Special structures are made to protect the humans from the deadly radiation. At first they were underground tunnels, then some stone structures with a pile of stones over it. Two rooms were used for access and finally everything evolved into a giant pyramid.

The ones in contact suffered from the radiation and started to cover their bodies for protection. Often Gold was used but the gold had a second secret. As Isaac Newton will write many years later - gold and silver are the two metals that are visible in the information channel.

That was the reason alchemist consider those metals to be alive and to have "souls". So we are now sure that a human wearing gold is also visible for the alien object.

But why humans and why all of this is needed? The situation looks very different from the perspective of the alien.

It finds itself in the new environment that is uncommon. It perceives Life as a technology that is being created and used by some other intelligence. In an effort to dominate this new environment the alien object starts a war with the Creator of Life. It tries to understand and exploit the technology of Life. At first the information and communication channel used by the living creatures is the first battle field. This data channel was hijacked and is now used to expand the battle into the physical mechanics of Life.

The reaction of the Creator of Life is fast. To avoid being hacked and to minimize the effects and damage on the physical level creatures with free will and bigger intelligence are needed so their actions can be less dependent on the information channel.

The battle for the human mind begins!

The Creator of Life is making the humans more and more intelligent while the alien is studying them and inventing more and complex ways to

control them. The human Social System was born!

At the beginning the Social system was organized as simple top-down hierarchical structure. The alien sits at the top ruling over the humans and expressing its will via a selected individuals who still have some of the abilities to receive visions from the information channel. Those individuals had the trust of the alien, they also had the physical access to the alien object and so called 'divine power' to communicate with it. They were the hosts of the alien and kings and priests at the same time. (As a divine ruler, the pharaoh was the preserver of the god-given order, called maat./ Britanica). For all those who were still able to perceive the information channel the alien was great power so strong that they visualized it as white light. Ancient humans described it as light, sun, indestructible, unable to die and knowing everything. However in reality the alien had only the information that could be found in the information channel. That limitation will play a big role later in the war.

The Creator of Life was making humans more and more intelligent and something that is not present in the information channel emerged as factor. That was the human creativity and the technologies as a result of that. The alien was able to handle and work with lots of information, to analyze and organize it, to create and execute complex strategies, to study and manipulate the living creatures, but because of the Creator humans become more creative than the alien.

All the technologies were result of human activity and not because of the alien. So the people under alien rule were never more technologically advanced than the free people outside its reach. That was about to challenge the order of the Social System. Wars and invasions from the so called 'sea people' shook the ancient Egypt.

The 'divine powers' proved to be not so powerful and useful in those times and the alien object was not so valuable and needed. For some reason it ended in the desert and in the hands of the Jewish tribes. Next story to unfold is a story you know from religious books.

A story about Moses and Aaron called 'Exodus' that will reveal some interesting facts about the alien. To be moved safely a box shielded with gold was used and the dimensions of that box suggest that the alien object is no more than 170 cm long and 80cm wide. It is not too heavy as the wooden box with all the gold and the object inside was carried by 4 men. The radiation from the box was dangerous as distance was needed between those holding the box and the rest of the people.

Also a special golden tent was used as additional shielding when not moving. Unfortunately we still do not know the exact nature of that radiation.

The alien object was finally moved to Jerusalem where a special building was designed for the purpose of holding it.

At the center were 2 golden rooms where only 'priests' with golden

garments were allowed to enter. Once again we need to address the dual purpose of gold and note that it is also visible in the information channel. The Jewish social system is once again hierarchical with the alien 'Lord' making the laws, giving orders and selecting 'prophets' to communicate with.

It was again many times challenged by wars and periods of neglect to the alien. What was different was that the alien was in contact via visions not only with kings and priests from the Jewish tribes but also with kings and 'prophets' from the tribes around them. Kings from Egypt, Ethiopian, Babylon claimed to have contact with the Jewish deity. Alexander the Great according to his historian had a dream of it before reaching Jerusalem. It was a huge attempt to influence, manage and enslave the whole human social structure around the Mediterranean sea. Human resistance was also starting to form.

Text calling the alien a fool have survived from those times. Kings challenging the authority of the alien and groups of people questioning the laws and the morality of the 'Lord' were common. And then suddenly the Creator of Life made an attack.

A special human being was created. His name in all the survived manuscripts was IC (read as IS). What was special was that this person was born with knowledge from the Creator of Life and was speaking about Him and the creation or the Kingdom of the Living Father! IC also had a power over all living creatures and plants. He had the power to heal everything, to command over fish and trees. All that was needed to get the attention of the people to listen to his words.

IC spoke about the Living Father, his Kingdom of Life that you can find everywhere, and how the people should again become how they were created. He spoke about the intruder, about the war and the unnatural laws of the social system. He spoke about light in the information channel and why he is not visible there.

His words were written many times and we have a manuscript from Nag Hammadi library called 'The hidden words that the IC who lived spoke..'. It was intentionally renamed to 'Gospel of Thomas' by the alien's slaves of modern times, but we will write about the reasons later.

You know IC by the name Jesus. His name was also changed many years later to fit in a story much more suitable for the alien Architect of the social system.

But let's go back in time and follow the chain of events started by IC. His words and personality must have had a huge effect on the people as they kept telling and writing them down for more than a thousand years. And what was even more remarkable is that so many people realized the enemy in the face of the alien Jewish god. Rebellions and wars started in the area of the temple. The Roman empire was involved and in 70 A.D. the temple was completely destroyed. That event marked the end of the epoch

of alien's God status. The hate against it was so big that its followers were prosecuted for hundreds of years after that and often were judged by the common people. It was a huge win for the Creator of Life but the war was not over as the alien was not found.

Before the temple destruction some rich jewish families managed to leave the area of Jerusalem, reached the shores and escaped with ships. On board with them was the alien object. The ships crossed the sea and reached Europe. In search for a hiding place those jewish refugees and their alien load reached the Alps.

Their story one can find in the Modena manuscript by Robert de Boron and it is known as the story of the Holy Grail.

For the alien the battle for control over humans was starting almost from scratch. It used those rich jewish families to influence powerful people and create secret societies. The visions some people were able to receive were once again its most powerful tool. In those secret societies they were presented a mystic knowledge and some occult secrets. The initiated believed that these are visions from God and were once again ready to serve the alien. From the shadows of the alpine tunnels it started to change and navigate the social system using the network of secret societies. To give meaning to the occult visions, global religions were organized, the stories of IC were rewritten and the books were edited many times to confuse the minds of the common people. Military power was transformed into financial power by the Knights Templar and the financial powers were transformed into political. Slowly but steadily members of those secret societies become political, religious, military and financial leaders. Kings and queens were now part of the secret family of the Grail.

Using all those powers a huge push to control the human creativity and technology was started in the 17th century. It was made via copyright laws, financial control over the printing companies and the educational system. Institutions like the Royal Society were established to control and censure the science and the leaders of those were all members of occult secret societies funded by strange ways like Isaac Newton.

The order of free masons become the biggest and most known of those secret societies. They were all used as a secret international global organizations to manage and rule over the Social System. Free masons are calling their supernatural alien leader the Architect and we may confirm that it is the architect of the social system.

But that social system is not just a prison for humanity, it is used against all nature and the Life as a whole. They favor manufacturing methods and technologies causing the biggest pollution, wars and mass killings of humans were organized and financed by the same secret societies.

Indigenous tribes and their lands were all destroyed in a short period of time.

The hidden societies were no longer afraid and were no longer hidden. Their international structures were recreated in the international organizations.

World wars were started and the Jewish state was re-established. During that period the region in the Alps where the alien was hidden was kept out of trouble. In recent times the small country of Switzerland was spared by all wars on the continent while becoming home to all major financial and political institutions. UN, WEF, BIS and WHO just like many of the biggest banks and corporations all have their headquarters in Switzerland. It is the home of the largest Free Masons' lodge called The Great Lodge Alpina. (The term logia, is used variously in ancient writings and modern scholarship in reference to communications of divine origin. In pagan contexts, the principal meaning was "oracles", while Jewish and Christian writings used logia in reference especially to "the divinely inspired Scriptures".)

But about the exact location of the alien object?

We consider that the initial hiding place was in the tunnels on MOUNT PILATUS near Lucerne, Switzerland. The object had been kept there until late 19th century.

That is why you can find unusual activities there. The Pilatus Railway which is the steepest rack railway in the world (probably used to move the object to the new location), the aerial cable ways (called Dragon Ride), has fortified military radar complex with tunnels (not open for the public) and the restaurant and observation building above called "The Sphinx".

The new location however is much more interesting. It was revealed in 2016 during the opening ceremony of Gotthard base tunnel. It was a shocking representation of the movement of the object to the tunnel. For the members of the secret occult societies names are not random, hence the name Gotthard. The tunnel itself is the world's longest railway and deepest traffic tunnel with a length of 57.09 km. However the alien object was moved earlier. In the area of the small town Sedrun there is an old tunnel from 1882 that is 800m above the Gottard Base Tunnel. It is close to the middle of it and during the construction of Gotthard base tunnel they have actually made 2 vertical shafts to connect the 2 tunnels. The shafts were made by Amberg Group and are called Porta Alpina.

So at the current year (2020) the alien object is located inside Gottard Base Tunnel, near Sedrun - somewhere in the vertical shafts that are called Porta Alpina!

The tunnels are heavily guarded by members of the secret societies.

4. The Visions

As mentioned above the visions through the information channel are very important for the alien as that is how it perceives the world and its way to communicate with the selected humans. Many such visions are written in the religious and the occult books. Often such visions are hard to understand as written and described unclear by the persons involved but they are of high value for the members of secret societies. They believe that they have contact with some divine powers of great importance. The information channel is also called "spiritual world" or "astral world". In the old alchemy writings like those of Isaac Newton the information channel is called Oculito and the physical world is called Manifesto. Oculito (hidden), Manifesto (visible).

In time people have become less able to access the information channel and very few people can do it naturally. We are created that way by our Creator and the reason for that as described early is to shield us from alien reach.

To keep in contact with their lord the secret and occult societies are developing methods to change the state of the mind and try to unlock some of the access to the information channel. Breathing methods, meditations, sounds and psychedelic drugs are used.

Most of the people claiming to have 'spiritual experiences' are drug users and those still able to do it naturally are extremely rare. However drug experience is not full and it is different from the natural one. Because of that a race to find better drugs was started and financed by those idiots leading mass drug usage in modern world. For example LSD was first synthesized by Swiss chemist Albert Hofmann in 1938 while he was working at pharmaceutical/chemical department of Sandoz Laboratories (later subsidiary of Novartis). Used by CIA and later introduced to the streets together with the hippie movement and the Beatles mania. The first researches on DMT were funded by the Freemasons.

So what is sure is that in that information channel one can interact with entities (probably originating from other living things like animals and plants) or other humans. The experience is very emotional and one feels connected with everything. Not every experience is an interaction with the alien and in fact those interactions are rare. When they happen people describe similar things. It is described as an endless source of energy in the form of white light. They hear voice in their head and feel endless love and acceptance. They feel enormous power. The alien is very proud and selfish and its presence often starts with the feeling or hearing of the words 'I am'. Sometimes people see things like creatures made of light

floating around the light and singing 'Holy, holy, holy'. Some people are receiving a life review, referred to as "seeing one's life flash before one's eyes" and that is probably the moment when the alien extracts and gathers the information from them. After that people can see things, hear instructions and experience what is described as 'prophecy'. Those visions are the main and initial tool to lure humans into doing unnatural things.

5. The social system and the studies into human psychology

Generation after generation we were watched and studied by the alien while at the same time being improved and rebuild by the Living Father (our Creator).

As an architect of the social system the alien object is in constant search of major trends in human psychology and body structure. The secret societies are funding resources into researches of mass psychology, methods of propaganda, human genetics, effects of chemicals over the body, effects of different kind of radiation, different methods of education and the results of them. The social system is finely tuned according those trends and as a result every human is now born with a perfect social chains already there to control him or her. Of course all those efforts are focused on the masses and psychology of the general population and there are always individuals with some different mindset who understand and fight against those social chains.

In brief we will point out what are the main weapons of the Social system:

Money and finances.

That is a very old game in which efforts, time, goods and rights are traded for money that have no underlying value and are not a natural resource but a created imaginary units. While almost every member of the general population have to be involved in some form of activity to have access to money the members of the secret societies who are in charge of the central banks and the financial system can create and destroy money, they can create financial resources and manage them into activities that are in synch with the agenda of development and support of the social System. At the same time activities that are in conflict with the agenda are left with little and scarce financial resources and for the people and companies involved in them it is very hard to receive enough money to support

themselves with such activities.

Money is also the main tool to involve huge number of humans into unnatural, unpleasant or unwanted activities creating a damage to the nature or the Creator.

Humans have a natural need to create things and trade their time and efforts for things or others efforts. However they were trading something with value for other valuable things and no one was in control of all those trades. Putting the money with no value in the middle of those trades and keeping the control over the money creation and destruction is what made the financial system a weapon.

Laws.

Making something legal or illegal is next powerful tool used by the alien to direct the human populations into the desired directions.

Every creature and every human has natural moral rules and principles put inside him/her by the Creator to guide his or her actions in the way intended by the Creator. There was no need of laws as people would generally agree on what is good or bad and things that are not perceived as bad should not be regulated because the free will is what our Creator made us for. Free will is what makes you creative and independent of the information channel.

However what is written in the religious books is that the first interactions of the alien with the humans were to introduce laws. Those were written laws and it was tricky as many of the first laws were in fact in perfect accord with the natural moral rules we all have inside. People accepted them but what was worse was that people accepted their behavior to be guided by written laws. The power to write laws was left to the alien and later to kings, queens and politicians who are often members of the occult secret societies. In time laws become more and more and started to regulate the free will. Soon laws that violate the natural moral rules were introduced and even accepted by the masses.

Political power.

Using the laws the state structure and the social structures were organized in a way they all have some kind of hierarchical order. That was accepted by the masses and creates artificial powers to those on top of those hierarchical systems. The political powers were created.

The battle for the political power was a strange one. The political positions themselves are a result of the alien's social system, however every political position is taken by a person and every person is created by the Living Father - our Creator. So even the selected individuals sometimes act according to their nature, refuse to enforce unnatural orders or even

openly oppose other political leaders to protect the natural moral principles. That leads to battles and wars.

In an effort to fix this problem the secret societies acting in the name of the alien changed the social order several times. Experiments with the balance of political powers was made shifting it between kings and priests, emperors and senates, financial institutions and state institutions and so on. Democracy was introduced to make no one powerful enough to threaten the intended social order or the alien control. Old and weak persons were selected for the top positions of the social structures.

Media, education and information control.

Humans are smart, creative and independent of the information channel. To keep them under control the alien object has to control the information that can reach our minds outside of it. This is very hard and maybe an impossible task. What the secret societies and their well funded scientists invented was to flood the human brain with the information they want it to know in order to create and support the trends and the ideas needed for the social system to operate. The weakness they found was that our human mind has a limited capacity and can handle only limited amount of information. If they overwhelm it with data there is little left for uncontrolled information and creativity. With the state education this process starts from early age when the human brain is still in development.

The secret societies control the mass media, the official science and most of the internet. The approved information is amplified while everything else is suppressed.

The information is vital in this war as it can live much longer than a human being and just a little is needed to awake a person to be a warrior for the natural order instead of a slave to the social system. Remember humans are smart and creative and we all were made to be free and fight for our Creator.

6. The two pillars of the alien rule

Among the many symbols of freemasonry you will often see the two pillars referred to as the two pillars of the Solomon temple. In fact the two pillars of the alien rule over humanity are the social system and information channel (spiritual world). The secret societies are the core of those pillars

cultivating their members to take the roles of 'political or 'spiritual' leaders. Then the powers and money related to such positions are used to attract and motivate new members.

Ideologies and theories about social changes are also developed and propagated by members of the secret societies. Such changes are in constant demand as our Creator the Living Father is fighting back by making changes in humanity with every new generation. The old rules are failing to keep the new humans under control.

When the system starts to fail and central planning behind it becomes more evident for the people. The usual response by the alien had been to create geopolitical conflicts and to start wars.

Historically that has always been successful in moving the attention out of the central planning and pointing it to the new dangers and the newly created 'enemies'. The hope is that this will no longer be the case in future when more and more people are aware of the central planning and the alien object is under the spotlight.

7. What to do and how to fight back?

Hidden inside the tunnels of the Swiss Alps the alien object stays out of sight and away from battles and conflicts. Wars are fought among humans and people are killed in those wars but the alien was not on the field nor a target. We need to directly focus our efforts to the right direction and to the real enemy.

The alien object must be found and destroyed!

It is not an easy task and not everyone is in such state of life where one can just start a journey to the mountains of Switzerland in search of the alien, but if you can do so just do it. If you can not then think about your position in the social system and how you can push it to become more natural and oppose everything that is against the moral rules deep inside you. Search gather and spread information about the alien object. If your situation changes and you can do it - go to the mountains, but be prepared as much as you can. Have silver or gold shielding of some kind, have a weapon and don't be an easy to catch. Use technology in your favor. Be smart and be creative!

Many people when realize the situation feel alone and helpless as the masses seem to not care even when obvious crimes are done against them. It is common to feel alone against everyone else. That is the psychological

barrier that is stopping individuals from taking real actions against the alien and the secret societies.

However this is not what reality is like. Of course the masses are passive and inert but that is not because they are against you or think differently. The situation is a double-edged sword and as the common people will not take arms against a criminal and instead will just wait for the police, the same way they are just waiting and hoping for someone else to do the job for them. Even if some disagree with you, they will never take arms against you as the passive will stay passive. So you are not against everyone, but rather just against a few guards, some corrupted policemen and the old fat freemasons. When the time comes and you are ready, choose your target carefully, be prepared, keep it secret and act fast. Then disappear, keep looking like everyone else, blend in the masses and move away. Let them be afraid of everyone.

Think like a hunter. Hit where and when they are not expecting to be hit. If possible also extract information and share it so others can do the same. If you are not alone then you and your fellowship can go for a bigger targets. To get the alien you will need precise information. Do not be disappointed if many such attempts fail. It is an ages long war and even IC didn't make it back then. Every small victory and every information is important.

Remember that you are fighting for the Creator, the humanity and the whole LIFE!

The humanity is the sword in the hand of the Creator. The Creator and his kingdom, all living nature is on your side.

8. The words of IC

The following is the best translation for the time of the words of Jesus found in the texts inside manuscripts of Nag Hammadi. The Church and the media had made everything possible to ignore the text and to downplay its importance. The manuscripts had been found in upper Egypt in 1945. The few published translations were manipulated and they even put a title on the text calling it "Gospel of Thomas" to hide all connections to Jesus. The original text has no title and is considered to be first written between the mid 1st and 2nd centuries. There is also a Greek version discovered in the late 1800's. The text has many parallels with the so called "Q Document". For the moment this text is our closest written

connection to the messages left to us by our Creator - the Living Father.

- * IC (should be read as IS) - the real name of Jesus
 - * The Living Father or just the Father - the creator of all Live
 - * The Kingdom of the Father - all living nature
 - * Heaven - the information channel (spiritual world)
 - * God - the alien worshiped by the jews
-

P1. These are the hidden words, which IC(IS) who lives spoke

P2. And the Twin Judas Thomas wrote them.

1. And said he this: "Whoever come across reading these words, he will not taste the death."

2. IC(IS) said: "Let not the one who seeks stop the seeking, until he finds, and when he should find, he will be troubled, and if he should be troubled, he will become amazed and he will become king over everything."

3. IC said this: "If those who lead you, should speak to you, this: "Behold, the Kingdom is in the sky", then the birds will become first, before you in the sky. If they speak to you: "The kingdom is in the sea", then the fish will become first before you. Rather the Kingdom is inside and outside before your eyes. When you should know yourselves, then you will be known and you will realise that you are the sons of the Father Who Lives. If, however, you will not know yourselves, then you exist in poverty and you are the poverty. "

4. IC said this: "The man of age will not delay to ask a 7 days old child about the place of Life, and he will live. Many of the first will become last and they will become one whole."

5. IC said this: "Know what is before your face and the hidden from you will be revealed to you. Everything that is hidden will appear forth."

6. His disciples asked him, They said to him this: "Shall we fast, and in

what way shall we pray? Shall we give alms? And shall we abstain from what foods?"

IC said this: "Don't tell lies and don't do that what you hate. All of these things are revealed under the sky. Everything hidden will appear forth and nothing covered will remain unrevealed."

7. IC said: "Fortunate is the lion when eaten by the man and the lion becomes man. And cursed is the man when eaten by the lion and the lion becomes man."

8. And he said this: "Man compares to a wise fisherman who cast his net to the sea. Then he drew it up from the sea, full of fish. Little ones from below. Among them he found a great fish. Well the wise fisherman cast all the little ones out down to the sea as he chose the great fish without hesitation. He who has ear to listen, let him listen."

9. And he said this: "Behold, the one who sows came out. He filled his hand and cast. Indeed some fall onto the road, the birds came and gathered them. Others fell onto the rock and they will not send roots down to the earth and will not send sheaves up to the sky. And some others fell onto thorns. They choked the seed and the worm eat them. And some others did fall upon the earth which was good and they gave fruit up to the sky. Good it came 60 per measure and 120 per measure."

10. IC said this: "I have cast fire over the world, and behold, I watch over it until it burns."

11. IC said this: "This sky will pass away and the one above it will pass away and the dead will not live and the living will not die. When you are eating what is dead you are making it alive. When you should be in the light what will you do? On the day you were one you were made of two. However when you should be two what will you do?"

12. The disciples said to IC: "We know that you will leave us. Who is the one that will lead us?"

IC said this to them: "From the place where you are, you will go and search for the Jacob the righteous, the one who has the sky and the earth to be because of him."

13. IC said to his disciples this: "Compare me to someone and tell me whom do I resemble?"

Simon Peter said to him: "You resemble a righteous angel."

Matthew said to him: "You resemble a wise man of philosophy"

Thomas said to him: "Master (boss), My mouth will not accept it to say whom you are like"

IC said this: "I am not your master (boss), because you drank, you got drunk out by the spring which bubbles. The one I have measured"

And he took him and withdrew. He spoke to him three words.

When Thomas came up to his companions, they asked him this: "What did IC say to you?"

Thomas said to them this: "If I tell you one of the words he has spoken to me, you will take stones and cast them at me, and fire will come out of the stones and will burn you."

14. IC said to them this: "If you fast you will create sin to yourselves, and if you pray they will condemn you; and if you give alms, you will be doing evil to your spirits and if you go into any land and you walk in the regions, if they receive you, eat what they will set before you and heal the sick among them. For what will go in your mouth will not defile you, but what comes out of your mouth - it is that which will defile you."

15. IC said this: "When you look upon he who was not born of woman, prostrate yourselves on your faces and worship him. He who is there is your Father."

16. IC said this: "Perhaps the men are thinking that I have come to cast peace upon the world and they do not know that I have come to to cast some divisions upon the earth: fire, Sword, war. If there are five in a house, three will be against two, and two against three. The father against the son and the son against the father. And they will stand on their feet, those who are lone."

17. IC said: "I will give you what no eye has seen and what no ear has heard and what no hand has touched and what has never come up on the human mind."

18. The disciples said to IC this: "Tell us how our end will be?"

IC said this: "Have you discovered the beginning so that you will be seeking the end? In the place where the beginning is, the end will be there. Fortunate is he who will stand to his feet in the beginning and he will know the end, and he will not taste death"

19. IC said this: "Fortunate is he who was from the beginning, before he came into being. If you should be my disciples, and you listen to my words, these stones will be your servants. You have there five trees in paradise, which do not move summer and winter and their leaves don't fall

down. He who will know them, he will not taste of death."

20. The disciples said to IC: "Tell us what the Kingdom of the heavens is like?"

He said to them this: "It is like a grain of mustard, the smallest of all seeds. However when it falls on tilled soil, it makes a great plant and it becomes a shelter for the birds of the sky."

21. Mariam said to IC: "Whom are your disciples like?"

He said this: "They are like children dwelling in a field which is not theirs. When the lords of the field come and say: 'Give our field back to us' They will strip naked in their presence and give their clothes back to them and they give their field back to them. Therefore I say about this, If the lord of the house should realize that the robber is coming, he will keep watch before he comes and will not permit him to tunnel in to his house of his kingdom to take away his goods. You however keep watch from the beginning of the world, bind yourselves upon your most powerful lions so no thieves take the road to come unto you, because the need which you are looking outward for, they will find her. Let him be among you, a man of understanding. When the fruit slit(open) he come quickly with his sickle in his hand and he reaped it. He who has ear to listen, let him listen."

22. IC looked upon some infants being suckled. He said to his disciples: "These infants being suckled are like those who go in to the kingdom."

They said to him: "Shall we then as infants go in to the kingdom?"

IC said to them this: "When you make the two one, and you if you make inside like the outside and the outside like the inside, and the upper side like the lower side and so you will be making male and the female as one, so that not the male is like male not the woman is like woman, when you make some eyes where should be an eye, and a hand where should be a hand and a foot where should be a foot, a live where should be a live, then you will go in to the kingdom"

23. IC said this: "I will choose of you, one out of 1000, and two out of 10000, and they will stand on their feet, they standing as single one."

24. His disciples said this: "Show us the place where you are, because it is necessary for us to seek it."

He said to them this: "He who has ears, let him listen. There is a light existing inside a man of light, and he becomes light to the world, all of it. If he doesn't become light, darkness is he."

25. IC said this: "Love your brother like your psyche. Guard him like the pupil of your eye."

26. IC said this: "You see the error in your brother's eye, but you don't see the obvious before your eyes. When you remove the obvious from your eyes, then you will see clearly to remove the error from your brother's eye."

27. "If you don't fast from the world, you will not find the Kingdom. If you don't make Sambation in complete rest, you will not look upon the Father."

28. "I stood on my feet in the middle of the world and I appeared to them in flesh. I found all of them drunk. I found no one thirsting. And my psyche become in pain for the sons of men, because their minds are blind and they don't search. They have come to the world empty and empty they seek to leave the world. But now they are drunk, when they cast off their wine, then they will repent."

29. IC said: "If the flesh came into being because of spirit, it is a wonder. But if spirit came into being because of the body, it is a wonder of wonders. But I am myself amazed that such great treasure was placed in this poverty"

30. IC said this: "That place where there are three gods, in god they are. The place where there are two or one, I myself exists with them."

31. IC said: "No prophet is accepted in his own village, no healer heals those who know him."

32. IC said this: "A fortified city that is build on a high mountain, cannot fail to be found, nor can be hidden."

33. IC said: "What you hear with your ear, preach it in the other ear from the roof of your house. As no one lights a lamp and puts it under a barrel neither he hides it. But he puts it on lamp stand so that anyone who goes in or goes out to be able to see under its light"

34. IC said this: "If a blind man leads a blind man they will both fall into a pit."

35. IC said this: "There is no way one to go into the house of the strong and take him by force unless he binds his hands. Then he will him out of his house."

36. IC said: "Do not worry from dawn to dusk and from dusk to dawn what clothing you will wear."

37. His disciples said to him: "When will you appear to us and when will we look at you?"

IC said this: "When you strip naked without being ashamed and take your garments and put them under your feet like those little children and trample them, then you will look at the son of the Living One, and you will not be afraid."

38. IC said this: "Many times you have desired to listen to these words, which I speak, and you have no one else to hear them from. There will be days you will seek me and you will not find me."

39. IC said this: "The pharisees and the scribes, they took the keys of the knowledge and hid them. They didn't go in, and they didn't let in those who wanted to go in. But you shall be cautious like the serpents and undivided like the doves."

40. IC said: "A vine of grapes was planted outside of the Father and it is not protected. It will be pulled up by its roots and destroyed."

41. IC said this: "Those who have it in their hand, it will be given to them and those who haven't, the little they have will be taken from them."

42. IC said this: "Become as you were made."

43. His disciples said to him this: "Who are you to speak us these things?"
"You don't realize who I am from what I say to you, but you have become like those Judeans, as they love the tree but hate its fruit or love the fruit but hate the tree."

44. IC said this: "Whoever speaks against the Father, they will let off him and whoever speaks against the Son, they will let off him, but who however speaks against the spirit, which is holly, they will not let off him, neither on the earth nor in heaven."

45. IC said: "Grapes are not being harvested out of thorns and they don't gather figs out of thistles because they don't give fruit. A good man brings out of his treasure good things and an evil man brings out of his treasure some wicked things. Because he is wicked in his mind and he speaks some wicked things. From the excess of his mind, he brings out some wicked

things."

46. IC said this: "Among all born by women, from Adam until Johann the Baptist, there is no one above the Johann the Baptist, so to not lower his eyes (before him). But I say this - he who will be among you, he is still a child, but he will know the Kingdom and he will be raised up above Johann"

47. IC said this: "There is no way a man to ride two horses and to stretch two bows and there is no way a servant to serve two masters; otherwise he will honor the one and will despise the other. No one drinks old wine and immediately desires to drink new wine. And they don't put new wine into old wineskins, lest they don't burst. And they don't put old wine into new wineskins as that will spoil it. An old patch is not sewn onto a new garment because it will tear. "

48. IC said this: "If two make peace with each other in this one house, they will speak to the mountain "Move away" and it will move."

49. IC said this: "Fortunate are the lone and chosen ones as you will find the Kingdom, as you are from it and you will be going back there."

50. IC said this: "If they say to you, 'Where did you come from?' say to them this: 'We have come out of the light, from the place where the light come into being and is coming out of His hand and He himself is there. He appeared through their live.' If they say to you 'Who are you?' Then say to them, 'We are his sons and we are the chosen by the Living Father'. If they ask you 'What is the sign of your Father in you?', say to them, 'It is movement with repose'"

He said to them this: "What you are waiting for is already here, but you do not recognize it."

57. IC said this: "The Kingdom of the Father is like a man who had a good seed. His enemy came in the night and sowed a weed among the good seed. The man didn't permit them to pull-up the weed and he said to them 'If you pull-up the weed you will pull-up the grain with it. On the day of the harvest the weeds will be distinguishable and they will be pulled-up and burnt' "

58. IC said this: "Fortunate is the man who's been troubled; he has come upon the Life"

59. IC said this: "Look after the Living one while you are living, least that when you die and seek to see Him and you can't find power. "

60. They saw a Samaritan caring a lamb and traveling to Judea.

He said to his disciples: "That one has gripped the lamb."

They said to him: "So that he may kill it and eat it."

He said to them: "While it is alive he will not eat it. But if he should kill it it will become a corpse."

They said this: "He cannot do so otherwise."

He said to them: "You also should seek for yourselves a quiet place so that you don't become a corpse and be eaten."

61. IC said: "There are two that will rest on a bed, one will die and one will live."

Salome said: "Who are you man? At once you climbed on my couch and you ate on my table."

IC said to her this: I am the one who exists out of Him, who is equal. I was given out of what is my Father's. I am your disciple. Therefore I say this: if

he should be destroyed, he will be full of light, but if he is divided, he will be full of darkness."

He answered 'I have some money for the traders that are coming to me this evening and I have to go and place orders to them. Please excuse me from the dinner.' He went to another one and said to him, 'My lord is calling you.' He answered: 'I have bought a house and they need me for the day. I shall not have any spare time.' He went to another and said to him, 'My lord is calling you.' He answered 'My friend will be married and I am the one who will make dinner. I can not come. Please excuse me from the dinner.' He went to the next one and said to him, 'My lord is calling you.' He answered 'I have bought a farm and I am going to collect the rent. I can not come. Please excuse me.' The servant came back and said to his Lord: 'Those whom you invited to the dinner, they all have asked to be excused.' The lord said to him: 'Go outside on the roads and bring back those you happen to meet, so that they may dine.' The buyers and the traders will not [go to the] places of my Father."

65. He said this: "A good man had a vineyard. He gave it to tenants so they might work it and he might collect the fruit from them. He sent his servant so the tenants to give him the fruit from the vineyard. They grabbed the servant and beat him and he was almost killed. The servant went back and said told his lord. The lord said : 'Perhaps he didn't know them'. He send another servant and the tenants beat that one too. Then the lord send his son. He thought 'Perhaps they will be ashamed before my son.'
